

I write to ask you to uphold the provisions in the Wisconsin Do-Not-Call list. I first joined this list because I was innundated with all types of telemarketing call and wished it to stop. After I joined it did stop. Wisconsin's law works and works well. Do not gut our law so that someone who I did not call, that I do not seek to do business with, can call me simply because we had a "past" business relationship. There is a always a reason that I no longer do business with a company and if I do desire to do business, let me be the initiating party and let me spend my quality time with my family, not answering telemarketing call. Thank you.
